

**NONSUCH
RESIDENTS'
ASSOCIATION**

Bulletin

AUTUMN 2017

EXTRACTS FROM SEPTEMBER 1955 NEWSLETTER

In response to your Association's application for Hays Walk and Cheyham Gardens to be made up, the Borough Council decided that, in view of their commitments they were not in a position to make up these roads for the present time. The issue will be pursued by your Association.

Our last issue of the Newsletter contained a note of appreciation for the placing of seats at Bus Stops in this area. We are sorry that we gave credit to the Transport Executive for this act. In fact it has come to our knowledge that the seats referred to were given to the Council by Canadian troops who were stationed in this area during the War, in recognition of services rendered by the residents of Epsom and Ewell, to these soldiers. We are sure that this news will come as a pleasant surprise to many of our readers who were unaware of this generous gesture and we ourselves take the view that the action is worthy of all possible publicity.

Some of our members may be aware that a good deal of ill-feeling is being provoked by the conduct of the staff at local railway stations. If any member of our Association is suffering in this fashion, let him take heart by the knowledge that the matter is being well pursued by one or two members of your Committee, and in fact, a battle royal is at the moment in progress. Communiques will be published from time to time.

We have no doubt that sites in the area badly overgrown with weeds have caused some little concern to our members, and residents will be glad to hear that your secretary recently approached Sutton Rugby Football Club with reference to the destruction of weeds in the Care-taker's garden and car park. Immediately thereafter the offending vegetation was destroyed. Our thanks to Sutton Rugby Football Club for their prompt and neighbourly action. We also congratulate the Club on the general appearance of their ground. They have destroyed the weeds by spraying and kept the grass short and tidy adding greatly to the amenities of the area. We understand that this good work was due in the main to the efforts of Mr. D. A. Grant, Assistant Secretary of the Club, and we are grateful to him.

Chairman's Report – Colin Keane

Welcome to issue 3 of the Bulletin. I am delighted that I am now part of a bigger team writing and producing the publication. Roz Langendoen, Nicky Cook and Sylvia Russell have joined.

I am very pleased that John Beckett was re-elected as our County Councillor back in May and would like to take this opportunity to acknowledge the enormous amount of work John does on our behalf.

On the subject of Councillors the next District Councillor elections are due to take place in May 2019 which is just over 18 months away. We elect three Councillors, if you or you know of someone in our community who would like to put themselves forward as a candidate, please start thinking about it now. If you would like to know more about being a Councillor please contact me.

Chris Frost one of our Borough Councillors was Mayor two years ago. From May this year his wife Liz, who is a Councillor for Woodcote, became Mayor and Chris is her Consort. He is doing a great job in the supporting role and as our Councillor.

The Association has continued to work on behalf of our residents in matters ranging from access to local open space, benches at bus stops, dangerous and noisy manhole covers to yellow lines.

As always we look at every planning application. We have continued our interest in developments on the Nescot land (Sycamore Gardens). The new houses are almost complete and a large number occupied. However the plans for the Care Home on the site have fallen through and new plans for an additional 88 homes have recently been permitted by the planning committee. Whilst we accept that housing is needed in the area we have serious concerns about the density of the proposed housing and the significant effect on roads, parking, schools and healthcare.

From our Treasurer - Innes Tarran

Many thanks to all of you who have already paid your £2 annual subscription for this year. If you have not yet paid, and would like to renew your membership or join the RA, please can you pay this to your Road Rep as detailed at the end of this newsletter. If you still have it, you can use the envelope previously provided, but if not, please just put your subs in an envelope with your name and address on the front.

Epsom and Ewell Borough Council is almost unique in that it has been controlled by independent councillors representing local residents for over 70 years. Your membership helps us to keep the Borough, and more specifically the Nonsuch area a pleasant place to live.

Future housing needs in Epsom & Ewell- Graham Dudley

The current target for new-build housing in Epsom and Ewell is 181 units per annum. A unit can be a flat or a house etc. The council is currently meeting this target.

However, the council is now revising its Local Plan in line with government requirements. As part of this, we are having to assess our future housing needs i.e. how many people or families are expected to want to buy or rent a house or flat in Epsom and Ewell in future. This has produced a future need of 418 units per annum, well above the current target. This is seen as extremely challenging if subsequently translated into a future target to replace the current one. Moreover, it takes no account of the amount of land available, the need for more schools, doctors, roads etc. that it would generate, or even the ability of developers to construct so many units.

Even worse, the Government has now published its own assessment of our housing need, which is an even higher figure of 579 units per annum. Clearly the government is determined to increase house building whatever the cost. I find this figure alarming and my RA colleagues and I will be having strong things to say about it.

I do accept that more people wish to live in our borough. I also accept this means we may need to build on some sites at a greater height and/or density than hitherto, and that we may also need to sacrifice some of the less attractive bits of our Green Belt and other open spaces. Unless we are prepared to make some concessions in this direction we have no chance whatsoever of persuading the government to accept a lower annual housing figure. But even this is unlikely to produce a solution unless the government either changes its mind or the character of the borough itself alters.

The council is currently consulting via its website on how you think we should approach matters and if the consultation is still running when you read this (**it ends on 6 November**) have your say by visiting: www.epsom-ewell.gov.uk/localPlan

Current Planning Matters - David Wood

For many years Nonsuch has only had minor residential extensions and some modest developments, but in the last two years we have seen an uplift in proposals for new housing.

I am sure residents will have noticed that the two houses at 37 and 37a Cheam Road have been demolished recently. Planning permission has been given for a new apartment block on this site and development has now commenced.

The major development in the area is the former NESCOL site at the junction of Reigate Road and Ewell Bypass. The original plan was for housing and a care home on this area. The planned houses are being built, but the promoters of the residential home have pulled out. A planning application was considered by the Borough Council for 88 residential dwellings. This was permitted at the planning committee on 5 October 2017 in spite of around 25 written objections. It will create a substantial increase in the population of the area.

With Central Government pushing hard for new built housing in the South East we can only expect more dense developments to be proposed in the future.

The Green Belt

Earlier this year Epsom and Ewell Borough Council carried out a study into our existing Green Belt land. The study is integral to a Government led partial review of our current Core Strategy (part of our adopted Local Plan).

The study found that all parts of our Green Belt are performing well, though inevitably some are performing better than others. (It also suggested that Nonsuch Park was not part of the Green Belt, though the Council has since disproved this.) It is thought the confusion arose because some of the original documents were prepared just prior to the onset of World War Two, when there was an understandable focus on more pressing matters.

Your Borough Councillors are fully committed to protecting the precious open spaces, including the Green Belt, which contribute so much to the character of our Borough. Unfortunately, things are never quite that simple. With the Government intent on increasing house-building numbers we are facing unprecedented demand for more and more houses in Epsom and Ewell.

With so little undeveloped land left the Council will inevitably have to consider the possibility of releasing some Green Belt land. That is why it is consulting (*as already mentioned by Graham Dudley*) with local residents on where future development should take place. It also wants your views about whether increases in height and/or density should be considered.

Against this background your Councillors are doing all they can to try and find an acceptable balance between housing need, Government policy and residents' wishes. Please help by making your views known (**by 6 November 2017**):
www.epsom-ewell.gov.uk/localPlan

Surrey County Council Elections

John Beckett was delighted and honoured once again to be elected to serve the residents of the Ewell Division comprising of Nonsuch, Ewell Village and Stoneleigh wards. John told us he received a very good reception on the doorstep, confirming his belief in the importance of responding quickly and effectively to residents' enquiries and concerns.

Three messages were very clear on the doorstep - residents are opposed to both the midnight switch-off of our streetlights and the huge 78% cut to the local highway budget. There was also concern that SCC is not efficiently giving value for money. The damning CIPFA Report on SCC's finances, released in March, provides evidence to support this view. John will therefore make these a priority and raise the issues at County Hall.

News from Surrey County Council – John Becket

Street Lights

A meeting was held with Inspector Jackie Elkins to discuss the police perception of street lights being switched off in Epsom and Ewell. Inspector Elkins confirmed that SCC only raised the decision to switch off streetlights at senior level. No local conversations with Borough or district officers took place.

She confirmed there was currently no available audited data on crime statistics since the switch-off but she has requested work to assess any increase in crime and/or antisocial behaviour. In the meantime it is essential incidents are reported so that Surrey Police have a complete picture of crime in Epsom and Ewell.

The fear of crime is still a real fear even if crime levels are low. Walking home at night in the dark is unsettling for many. Good street lighting makes people feel safer and I hope the Police will support that position whenever their views are sought.

Subsequent information suggests that reported thefts from motor vehicles has quadrupled since the lights were turned off but this is all vehicle thefts, not just those between 12 and 5 am.

SCC's Conservative Cabinet met on 30 May and agreed what is described as an "alternative funding model" for part-night street lighting. This essentially offers the 11 Boroughs/Districts the opportunity to pay for streetlights to remain on. Pretending most Boroughs/Districts have the financial resources to pay for basic services which SCC no longer wishes to provide is becoming a common practice as SCC makes cuts to environmental and highway budgets.

The following points were made by Members of the Cabinet to support their position:

- An on-line petition calling for a reversal of the part-night switch-off had 'only' attracted about 5000 signatures which indicated limited opposition to the policy.
- There is a 'silent majority' in favour of switching off streetlights in order to see the night sky
- County-wide Surrey is varied in its environment and there are, for example, different perceptions between rural and urban areas as to the value and effects of switching off streetlights.

Residents can request a review of the decision on the link below:
<https://www.surreycc.gov.uk/roads-and-transport/road-maintenance-and-cleaning/street-lights-traffic-signals-and-signs/part-night-street-lighting/reviews-process-for-part-night-lighting>

EXTRACT FROM OCTOBER 1938

A letter from the Surrey County Council was read stating that the District Valuer had made his valuation, amounting to £7,200, for approximately fifteen acres of land forming part of Nonsuch Park which would be required ultimately for the widening of the London and Ewell by-pass road.

It added that if desired by the Borough Council as the highway authority the land could be reserved out of the Green Belt scheme and acquired at the District Valuer's valuation, or alternatively, the land could continue to be subject to Green Belt control, and acquired under the Green Belt Act as and when it became necessary to carry out road widenings.

The Vacation Committee was informed that over fourteen acres of the land valued at £7,100 would eventually be required for the widening of the London road, but that such widening was not imminent and was not included in the Five Year Programme being prepared for works of this nature.

The Council raised no objection to the land remaining subject to Green Belt control for the time being and that it be acquired under the provisions of the Green Belt Act as and when it became necessary to carry out the high way improvements.

* * *

Highways Budget

I was appointed Chairman of Epsom and Ewell Local Committee and wrote to the Cabinet member for Highways regarding the reduction of the local highways budget.

Dear Cllr Kemp

At the Epsom and Ewell Local Committee Meeting on 19th June, there was a long and detailed discussion about the local highways budget. Members voted in support of a recommendation that I write to you expressing in the strongest possible terms the feeling of the majority of the Local Committee's opposition to the 78% cut in local highways funding in 2017/2018. Members are concerned on several grounds.

Firstly that the decision was taken in March, six weeks after the Budget Meeting and without consultation with Members or post-decision scrutiny.

Secondly, the prioritising of the E&E Local Committee draft (anticipated) 2017/2018 local highway budget, which was completed with officers in the autumn of 2016, has had to be abandoned and could not even be started until after the recent elections. This is no way to plan and deliver any service, particularly one that is so high profile in the minds of residents.

Thirdly the funding cut itself has had a huge impact on the work of the local highways officers. Epsom and Ewell has recently lost several key members of its highways team with no replacements forthcoming. This cut also has a huge impact on Members' ability to fund maintenance work other than those issues deemed to be safety defects. Members are therefore finding it impossible to respond to local priorities which diminishes the value of the Local Committee and the role of Members locally.

Finally, which services to fund and at what level is a matter of political choice. Members of the Local Committee do not accept that such a drastic cut to local highways was inevitable or unavoidable. The Cabinet's recent option of returning the funding to current levels by borrowing the monies, but at the cost of the revenue budget, was a veiled attempt to reverse a decision which has caused so many issues amongst Councillors across all political persuasions. The Committee believes that the Cabinet could have taken a different decision and made different financial choices and that arguing that there was no alternative is not accepted in Epsom and Ewell. I look forward to your reply which I will obviously share with all of the members of the Local Committee.

The Refuse and Recycling Big Switch proves a success

Epsom & Ewell's switch to a 'simply weekly' refuse and recycling scheme over the summer went smoothly. From my position as Chair of the Environment Committee, it seems to have been well received and supported by residents. Certainly having weekly collections of all the bins - excluding garden waste - is proving very popular with residents. We're now working to bring the Big Switch to flats, which will take place on a block-by-block basis over the autumn.

There are already signs that the system is pushing up recycling rates. In July, the first full month of collections under the system, dry recycling was up 20% on the same month in 2016, and August figures have shown dry recycling up 23% on the equivalent period of last year.

Last year Epsom and Ewell recycled around 48% of total household waste. Now we are well on course to exceed 55% - and hopefully get well past that milestone. That's important because what you don't recycle is expensive to dispose of as refuse. Last year alone, refuse disposal cost Epsom & Ewell residents about **£1.7 million**.

Landfill costs are around **£110 a tonne** so the less we put into the ground the better for Council finances, your council tax bill and the environment. Residents can play their part by using the black rubbish bin as little as possible and not using it for items that can be recycled.

For more information on how you can make a difference please use the following link:

<http://www.epsom-ewell.gov.uk/residents/recycling-and-waste>

Surrey CC Refuse and Recycling Centres (CRC sites)

SCC put a number of recommendations forward at a cabinet meeting on 26 September aiming to reduce costs. The recommendations included

- Ending the free daily allowance of chargeable waste from the construction, alteration or repair of homes and gardens such as rubble, plasterboard, soil.
- A core strategic network of (4) CRC sites to remain open 7 days a week, other sites to be closed for part of the week.

The recommendations were carried and come into force in December 2017. The Epsom site will be closed on Tuesday and Wednesday. *Please give John your views if you are concerned about this reduction to our service.*

Barking Dogs

We have had a numbers of requests from residents to ask dog owners to do all they can to keep their dogs quiet. We appreciate that dogs like to bark but please be considerate of the time you let them out into your garden which may be well past the bed time of many of your neighbours.

Pot Hole Reporting

Are you aware that pot holes can be reported to Surrey CC? Go to <https://www.surreycc.gov.uk/do-it-online/report-it-online>. When a pot hole has been reported there is a case for compensation for anyone whose vehicle is later damaged by that pot hole. This web site can also be used to report a problem with pavements, street lighting and many other things.

Surrey Wildlife Trust (SWT)

We have two Nature Reserves within our RA boundary, Howell Hill and Priest Hill. Lucy Bryce, Liaison Officer updates us:

SWT has undergone changes with new faces on site. Our new centralised system is working well. Volunteer Wardens are assisting our Task Leaders, running work parties with an enthusiastic, dedicated set of volunteers. Surveyors are monitoring, mapping and checking site safety and Liaison Officers are working with site users, land owners and local authorities developing working relationships.

Priest Hill

Our volunteer Warden, David is giving his time and sharing his passion for wildlife with visitors and volunteers. We have been clearing paths and removing invasive species. We shall be tackling the scrub and welcoming back cattle who eat the tough grasses preparing the site for spring by creating space and bare ground for grassland flora. We will be hosting volunteer days on Monday 6 November and 4 December and welcome new members and local residents.

Howell Hill

An abundance of beautiful summer flora as well as an impressive number of Small Blue butterflies is always evident. The site's volunteer Warden Eileen Taylor has fantastic knowledge of the site and its wildlife. SWT will be preparing the site for next summer by hosting a volunteer work party on 18 October to create areas of bare ground and carry out some scrub work to allow more space for chalk grassland species.

If you wish to join one of SWT's friendly Volunteer days please contact us on Volunteering: 01483 795464

**volunteers@surreywt.org.uk
for more information and to register.**

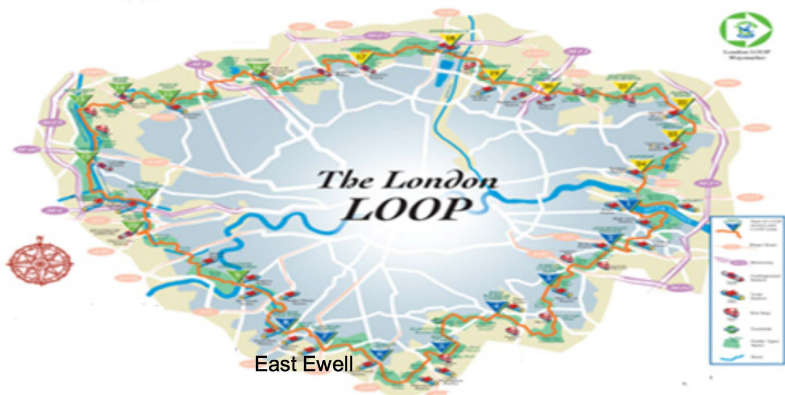

Time to Get Cycling

There is still time to get cycling before winter draws in. If you haven't done so, it's worth exploring the borough's extensive network of cycle routes. These are suitable both for utility journeys and for leisure rides. You can find the Borough Council's Family Cycle Map at <http://bit.ly/2uZ0F8f>.

You may also like to join a short group ride for beginners, which leaves the Nonsuch Park Mansion every Saturday afternoon at 2pm. Further details at <http://bit.ly/2uMtHsF>.

Drones in Nonsuch Park

Councillor Graham Dudley sits on the Nonsuch Park Joint Management Committee. He is trying to have drones banned in Nonsuch Park because he considers them a hazard/nuisance to park users. They have been banned in Royal Parks but extending this to other parks is not easy as there is no legislation. What there is relates mainly to the Civil Aviation Authority's concerns about drones interfering with aircraft at major airports.

If you have strong views on this matter, either for or against, please email Graham: gdudley@epsom-ewell.gov.uk

Local History Corner

It's around 90 years ago that residents started to move into the first completed houses on the 'Howell Hill Estate'. Built in 'Ten Acre Field', Queensmead Avenue, Cheam Road and Hillside Road formed a triangle of new homes in open farmland some 14 miles from London.

In 1978, the acclaimed author and playwright, Michael Frayn provided a wonderfully evocative and informative look at suburban development with the personal perspective of life as an 11 year old boy during the war in Hillside Road.

Commissioned by the BBC '**Three Streets in the Country**' is the second in a five part series exploring modern architecture. As well as discovering the history of suburbia, Michael revisited his childhood home, reminiscing as he walked around local streets and countryside. It's packed with fascinating information and a real trip down memory lane for those who have lived here longer than they'd care to admit!

A rather worn out video of the film would be lent to neighbours by dearly missed Cicely. Now, thanks to Kevin Porter, we can all watch it again (and again) on YouTube. Perhaps it's you avoiding horses in the village or perusing plants at Seymour's Nursery!

Michael's fond memories have been shared in correspondence with the current owner, Jo Beable, who has lived in the house for some 35 years. Jo is pictured with Michael in Hillside Road.

If you have memories, stories or photographs of the Nonsuch RA area of Ewell/Cheam which you would like to share with us, we would love to hear from you.

What can you do as a resident ?

- * Ensure you renew your membership of the Residents Association, or to become a member if you are not one already. The annual subscription is still only £2 for each household for the year. Please return your subscription to your Area Representative.

- * Please attend the Annual General Meeting next March. This is the opportunity for you to hear what is going on in your area, what is planned and what needs to be considered. It is also the opportunity for you to contribute your thoughts, both formally and informally, to the Committee and to the Councillors.

- * At any time, please give us your input. You can contact your Area Representative, or any member of the Committee, or any of the Councillors, on any subject which you think involves us. If you do not tell us things, there is a fair chance we will not know about your particular concern.

- * If you contact council officers or the police about something which is of interest or concern to other residents, please let us know so that we can collate thoughts and keep people informed.

- * Please continue to give us your support on any matter affecting the residents and the community. The strength of a community rests in the hands of its residents.

- * If you are able to help by becoming an Area Representative, or by joining the Committee, please let any of the officers or Area Representatives know. The effort involved is not very great but the benefit to yourself and to the other residents can be significant. We still particularly need the services of a ***Deputy Chairman, Social Secretary, Social Media Secretary and Editor of the Bulletin***. This Association functions through the efforts of willing volunteers and we are always keen to hear of those who are prepared to help.

Thank you for your support. Thank you for caring.

We bring

THE SENSATIONS OF RADIOLYMPIA

to you!

Model 658
5-valve superhet receiver with AVC. 3 wave ranges. Six station push buttons. **13½ Gns**
or by hire purchase

Yes, there were plenty of sensations at this year's Radiolympia in the way of purer tone, greater selectivity, easier tuning and improved cabinet design. But the talk of the show was undoubtedly the new 1938-9

"His Master's Voice" *Radio*

the models which set the standard in everything which makes listening enjoyable. Come and hear these "H.M.V." sets yourself—we have a wide range in stock.
